- Collaborated with the team in the warehouse to separate food.

LANGUAGES

- **English:** Professional working proficiency
- **French:** Basic/ Intermediate
- **Vietnam:** Fluent

Letter of Recommendation

Date: May 2, 2025

To Whom It May Concern,

I am writing to highly recommend **John Nguyen** for any opportunity in the field of software or web development. I had the pleasure of teaching and working closely with John during his time as a student in the Software Development Diploma program at the Southern Alberta Institute of Technology (SAIT).

John consistently demonstrated exceptional dedication, technical acumen, and leadership in both individual and group projects. His work on projects such as *Sprout: Plant Care Tracker* and *AI Solution* showcased his ability to lead teams, solve complex problems, and implement innovative solutions using technologies such as React Native, Node.js, MongoDB, and Open AI.

What sets John apart is his passion for learning and applying his skills in real-world settings. Whether integrating APIs, performing rigorous testing, or deploying responsive applications, John approaches every task with professionalism and attention to detail. In addition to his technical strengths, John is a reliable team player with excellent communication skills and a collaborative spirit, as demonstrated in his roles both in academics and in his volunteer and technician experiences.

I am confident that John will be a valuable asset to any team or organization. Please feel free to contact me if you require any further information.

Sincerely,

Ramin Nassiri, PhD

Instructor
Southern Alberta Institute of Technology (SAIT)
